**Room numbers:** two accessible rooms with interconnecting rooms.

### **Parking:**

There are two accessible parking bays provided on the first and second floor of the building, near the lifts.

### **Entry into reception**

Reception is a large tiled level area with ample seating. The reception counter does not have a lowered section for wheel chairs but staff will assist guests if required.

### **Lifts**

There are two lifts. These measurements are of the larger one with a floor space of 2360mm long by 1073mm wide, with the door opening being 900mm wide. The control panel has large tactile buttons with Braille. The other lift is too narrow for a wheelchair to turn around in.

### **Access to public areas**

There are lifts to all floors and the pool is on the thirteenth floor which has lift to get to the pool deck. There are accessible toilets at the level of the lift to the pool

**Lift to pool**

**Disabled toilet near pool**

**Accommodation:**

There are two accessible guest rooms on floors nine and ten which are on level access with no steps or sills. The door handles are D style levers and the door widths are 825mm.

There is an automatic door opener into the room, so there is no need to push the heavy door and a large button to press to come out, as shown.

Room furniture can be moved to suit the guest's requirements. The circulation space within the lounge room is very good and large wheelchairs will be able to move unhindered.

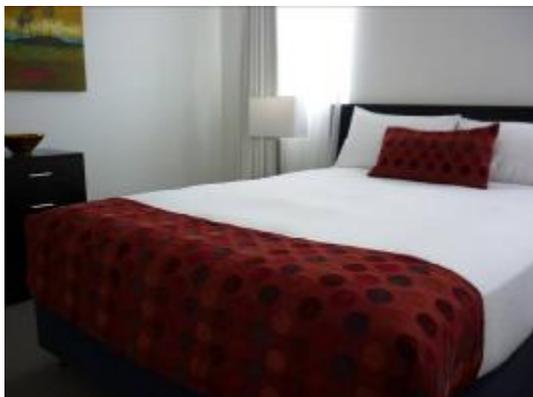

The kitchen is not accessible with benches all around and cupboards under the sink as shown in the photo

The bed room has a queen size bed and there is ample room to move around it or it can be moved easily to allow greater room to one side. Under bed clearance is 130mm but the resort will provide bed risers to assist guests requiring the use of a hoist. Please ask when booking.

The adjoining room has two single beds, but does not have a kitchen.

### **Sanitary Facilities:**

Entry into the accessible shower and toilet is through a wide door with a clear width of 820mm.

The facility is a combined toilet and shower with a dimension of 2630mm long by 2096mm wide. There is ample room to move a hoist through the doorway and into the shower and toilet area

Clearance to the under side of the sink is 640mm with a top height of 755mm.

Grab rails are fitted to the toilets and are mounted 810mm from the floor to top of grab rail.

Shower is fitted with a fold down seat that is 1000mm long by 400 wide and at a height of 480mm. There is a horizontal grab rail mounted at 800mm from the floor and the shower has a lever flick mix tap.

The shower is hob less and is easily accessible.

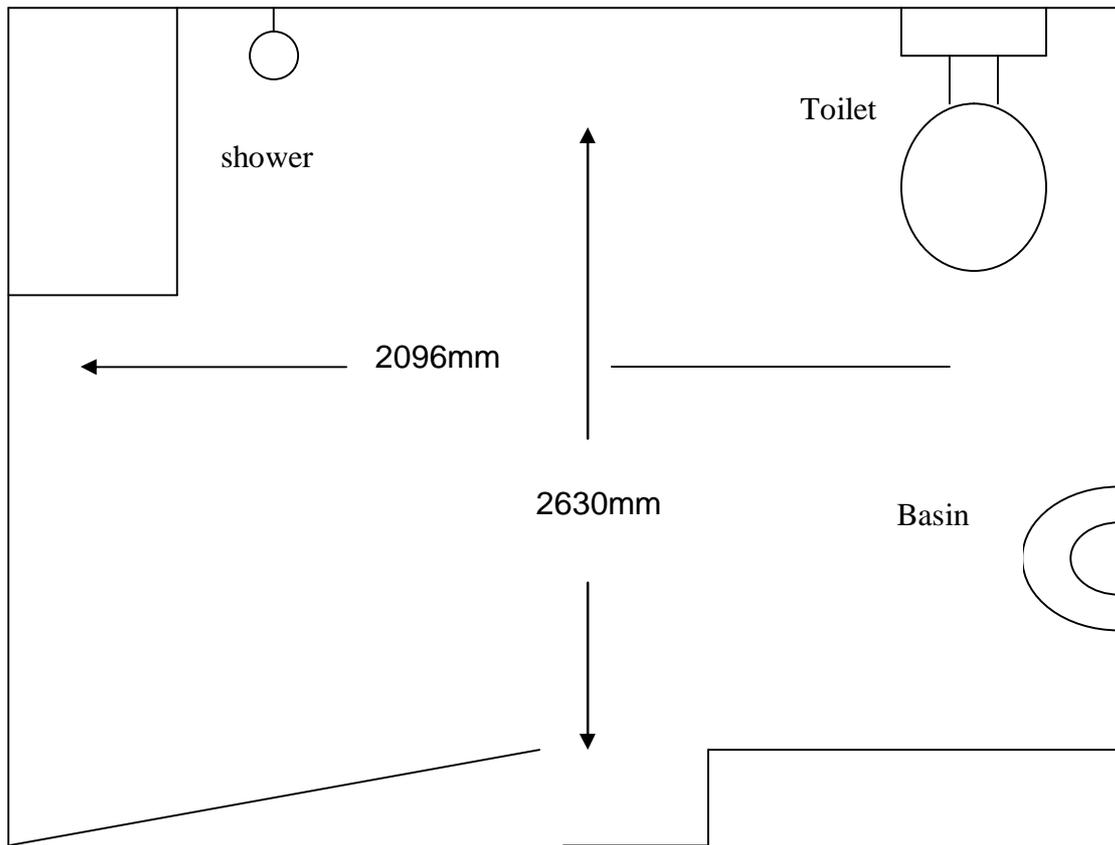

The toilet is fitted with grab rails and is located next to the shower recess.

There is 440mm from the centre of the toilet to the wall.

There is a washing machine, sink and dryer in the cupboard. The dryer is high off the floor but the controls are at the bottom.

There is an enclosed balcony off the lounge room, looking west over Cairns to the mountains, which has access from two doors, but only the dining room entrance has a little ramp, the other has a little step.

The diagram is not drawn to scale.

Staff are very friendly and will assist with baggage if required.

The resort is across the road from Cairns Central Shopping Centre and also a short stroll from the CBD and you will find many great restaurants located a short distance from the accommodation.
